

# AMPUTEES HELPING AMPUTEES (AHA)

## 2010 Summer Meeting

Hello Amputees, Family and Friends,

Hope everyone is celebrating the wonderful springtime. For those who haven't heard, a special Thank You to Jordan Wells and Dayton Webber who accepted a \$1000.00 donation to AHA on behalf of the Olive Garden in Waldorf, MD. Jordan and her family patron the Olive Garden and the company wanted to make a donation. Dayton was very kind to accept the check with Jordon on behalf of AHA. Go to our website..... [www.oohrah.net/aha](http://www.oohrah.net/aha)..... and view the wonderful pictures taken by Don Patterson.

Lots of activity is in "the works" for the upcoming June meeting. Please welcome Brian Monroe and Terry Huber from [Hanger Prosthetics and Orthotics](#). The topics for presentation will Be [Upper Extremity Advancements](#); [Lower Extremity Advancements and Micro Processor Knees \(MPK's\)](#). Both Brian and Terry will bring samples and provide information on the newest prosthetic technology. This plans to be a very interactive presentation for everyone of all ages.

About our presentors:

Brian Monroe is a Board Certified Prosthetist/Orthotist, member, American Academy Of Orthotists and Prosthetists; member, Upper-limb Prosthetic Society AAOP; member, Amputee Coalition of America. Brian has written multiple Publications including "Upper Extremity Prosthetics", Prosthetic Advances and Challenges "Anatomically contoured Controlled Interface", "Trans-humeral Socket Interface." He has presented multiple lectures including Grand Rounds Lecture, Dwight D. Eisenhower Army Hospital on "Lower extremity Prosthetics and Rehabilitation Potential", Grand Rounds Lecture, NYU Bellevue Hospital, Plastic/Hand Surgery Fellows "Surgical Techniques in Partial Hand Amputations" just to name a few.

Terry Hubner is a below the knee amputee and leads a multidisciplinary treatment team that restores the highest level of comfort, function and appearance to patients of all ages and functional abilities. Terry is also Board Certified. He joined Hanger Prosthetics in 1974 and is the area practice manager. Terry is wearing the latest in socket design that he helped develop, the "V" Hold Technology. Terry's Areas of Specialty are "V" Hold Elevated Suction Socket, Diabetic Management and Immediate Post Operative Care.

The meeting is Tuesday June 8<sup>th</sup> at Calvert Memorial Hospital and is from 6:00-8:00 PM. We will meet in **Classroom 1**, ground level of the hospital. **\*\*Please RSVP\*\*** [Hanger](#) will be providing food so I need a "head count". Please call me 410-535-8210 or E-Mail [sschall@cmhlink.org](mailto:sschall@cmhlink.org). Please plan to arrive early and follow the signs to the location.

Look forward to seeing everyone and again, Thank You for you're support.

Scarlett M. Schall
